OBJECTIVE

Results-driven Data Engineer with experience in building and optimizing data pipelines using ETL tools such as Informatica, IICS, Snowflake, and SQL. Skilled in data integration, transformation, and database management to ensure efficient and reliable data flows.

SKILLS

- **Technical Skills:**

- IICS
- Snowflake
- MySQL
- AWS Cloud
- Informatica PowerCenter
- Python
- ETL Tools
- Java
- Data Structure

- **Soft Skills**

- Leadership
- Teamwork
- Quick learner

CERTIFICATIONS

- AWS Cloud Practitioner (2022-2025)

INTERESTS

- Content Creation
- Swimming
- Outdoor Sports

EXPERIENCE

- **Cognizant Technology Solutions (Dec 2023 – Present)**

- **Skills Applied:** IICS, Snowflake, MySQL, Informatica PowerCenter, ETL Tools
- **Responsibilities:**
 - Created mappings, workflows for data integration to streamline data flow process.
 - Conducted data cleaning to ensure data quality and accuracy.
 - Managed data flows to maintain efficient and reliable data pipelines.

PROJECTS

- **Electricity Consumption Analysis and Prediction Using Machine Learning**

- Analyzed and predicted electricity consumption patterns using machine learning algorithms to optimize energy usage and efficiency.

- **Purchase Store and Logistics Management System**

- Developed a comprehensive management system using Java and MySQL to streamline the processes of purchasing, storing, and logistics management.
- Managed development of project as group-leader, led a team in the design, implementation, and testing phases.
